

# PHILIPS M1116B AND M1116 RECORDER MODULES

## ABOUT

The **Philips M1116B and M1116C** recorder modules for IntelliVue patient monitors offer reliable and efficient documentation of patient data during critical care monitoring. Compatible with IntelliVue MX500, MX550, MX600, MX700, and MX800 monitors, these recorder modules deliver high-quality printouts of vital signs and waveforms. For MX400 and MX450 models, the recording functionality is integrated as an optional feature within the monitor itself, eliminating the need for external modules. These recorders are designed to support rapid access to detailed patient information, enhancing clinical workflows and documentation.

## FEATURES

**Compatibility:** Designed for IntelliVue MX500, MX550, MX600, MX700, and MX800 monitors; integrated option for MX400 and MX450 models.

**High-Quality Printouts:** Provides clear and precise documentation of patient waveforms, trends, and events.

**User-Friendly Operation:** Simple controls and clear indicators for seamless integration into clinical workflows.

**Compact Design:** Minimal footprint fits easily within a variety of care settings.

**Enhanced Workflow:** Supports timely access to critical patient information, aiding in accurate decision-making.

## DIMENSIONS

**Height:** 3.6 in (9.96 cm)

**Width:** 2.9 in (7.3 cm)

**Depth:** 3.9 in (9.7 cm)

**Weight:** 17.9 oz (507.5 g)
